Notes for Editors:

- The E-Homebuying Forum was established in April 2008 in order to bring together a group of like-minded companies and individuals who have a commercial interest in the home-buying and selling process, and who are interested in effecting real change within both industry and Government to speed up property transactions.
- The Forum intends to build on the Government's vision of easier home buying and selling, first announced in 1999, to ensure modernisation of the home buying process – by harnessing technology to facilitate marketing, investigating and transferring residential property with greater ease, security, transparency and minimal environmental impact.
- The E-Homebuying Forum has signed memoranda of understanding with the Council of Property Search Organisations (CoPSO), the Council of Licensed Conveyancers (CLC), the Legal Software Suppliers Association (LSSA) and PISCES, and has received support for its aims from the Council of Mortgage Lenders (CML), the Royal Institution of Chartered Surveyors (RICS), the Building Societies Association, the Legal Services Commission and Which?.
